CONTROL PANELS

- **ECONOMICALLY PRICED**
- **UL LISTED NEMA 12 CABINET**
- **ETL LISTED ON SOME MODELS**

Shipped pre-wired by Col-Met for easy and accurate hookup. Panel controls the exhaust fan and light operation of the spray booth. Panel includes a NEMA 12 enclosure, main disconnect switch, magnetic motor starter with overload disconnect and operative On/Off switch with fire protection interlock. Control Panels are designed for three (3) phase and single (1) phase operations. Consult your factory representative for further information. Not recommended for Col-Met Spray Booths featuring air make-up units, air balancing systems and/or infrared heaters.

FEATURES

- NEMA 12 Enclosure
- Non-Fused Disconnect
- Starters with Overload Disconnect
- Two-Position Selector Switches
- Fire Protection Interlock

OPTIONS / CUSTOM PANELS
