

Curtain Walls & Dividers

Separate and maximize your usable space with GFS Curtain Walls and Dividers. Curtain Walls provide a retractable barrier for confining dirt, dust and contaminants, and control cold loss. All materials meet NFPA 701 for fire retardancy.

APPLICATIONS

- Aluminum repair
- Grinding
- Limited painting
- Sanding
- Wash bay/booth
- Welding
- Woodworking

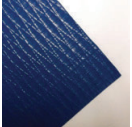

Curtain Walls & Dividers

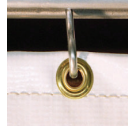

FEATURES

Steel-Scrim™ Laminate Vinyl

Featuring our proprietary, tri-lateral polyester scrim design, Steel Scrim Vinyl is 84% stronger than standard laminate vinyl.

Brass Grommets

#2 brass toothed grommets are spaced every 12" on center of the curtains to hang securely on the roller hooks.

Work-View Window

20-mil, flame resistant and double polished PVC window for a clear view of workers and operations. Meets CFM and NFPA 701 standards.

Roller Track System

Heavy-duty, 16-gauge roller track system modularly connects track lengths to your desired shape and length. Available in beam flange, ceiling, floor or suspended (threaded rod or beam to chain) mount.

Chain Weighted Hem

Heavy-duty, 3/15" galvanized chain is inserted into the 4" bottom pocket to stabilize the curtain against drafts.

2-Wheel Roller Hooks

Available for large curtain systems, two-wheel steel roller hooks make for easy sliding and folding of curtains.

Electronically Welded Seams

Interior seams are electronically welded with RF bar sealers for an extra tough resistance to tears. Outer hems are sewn with a heavy-duty, double-lock stitched nylon thread.

Velcro Attachments

2" velcro side attachments connect two curtains together and seal off the area. Available in standard 2' swatches, full length or custom.

ACCESSORIES & OPTIONS

Weld-View Window: 14-mil, PVC weld-view window blocks harmful UV rays from welding while allowing view of workers. Meets CFM and NFPA 701 standards.

Adhesive Velcro: Attaches any curtain to a brick, metal, concrete or wood wall or door opening.

Vinyl Floor Sweep: Seals bottom 1" gap to keep dirt, dust and contaminants out. Sew-in or velco options available.

Floor Mount D-Rings: Securely fastens curtain system to prevent against heavy updrafts. Includes strap and buckle.
